

REMARKS

The attached sheets of drawings includes changes to Figs. 25 and 26. Annotated sheets showing the changes are attached along with replacement sheets. The replacement sheets contain reference numbers 26a, 27a and 27b, which were inadvertently omitted. This amendment is supported on page 41 of the specification.

In addition, in Fig. 26, the contact hole 27a was formed in the second insulating film 54 but did not reach the gate connection line 24a. Applicants now amend the shape of the contact hole 27a so that the contact hole 27a reaches the gate connection line 24a. This amendment is also supported on page 41 of the specification. New matter has not been added.

Applicants respectfully request entry of this amendment prior to action on the merits.

Respectfully submitted,

GREER, BURNS & CRAIN, LTD.
